Java	CSS	JQuery	Bootstrap	CodeIgniter 3

Professional Experience

Alarmnet, INC.

Internship | Programmer / System Admin / Technical Support   Cubao, Quezon City   February - June 2023

Web Developer
- Programmed and designed the landing page of "Gold's Gym's" website, enhancing brand visibility and engagement with users.
- Professionally updated and meticulously maintained Alarmnet website, ensuring its seamless functionality and user experience.

Automobile Association Philippines

Fullstack Developer   Gilmore, Quezon City   August - November 2023

Web Developer
- Collaboratively designed systems, actively participating in the development and implementation of features from scratch, adept at translating conceptual ideas into functional components.

Projects

Sammy Hopper and the Mysteries of Hogmaths
- An educational math game tailored for Grade 8 students of Our Lady of La Salette Inc., designed to educate them in an engaging and interesting way.

Gold's Gym E. Rodriguez Landing page
- Developed a website during my internship aimed at enhancing the presence of a newly established gym.

Forsaken
- Developed a game over the course of a month as our final game development project, where I challenged myself to create the game with my own unique art style and animations.
